SUPER EFFECTIVE MOISTURE CURE POLYURETHANE COURT BINDER

The **Sports-Cote™ Court Binder Moisture Cure** is a clear moisture curing polyurethane lacquer that forms a strong flexible film within the interstices of the porous asphalt of the court.

Sports-Cote™ Court Binder Moisture Cure penetrates the substrate and cures to reinforce and strengthen the bitumen binder without adversely affecting the porosity.

Sports-Cote™ Court Binder Moisture Cure may be applied to old or new porous asphalt or macadam and in both cases will reduce the softening effect of high ambient temperature as well as strengthening the court.

- Reduces the Softening Effect of High Temperature
- Solvent Blend Gives Maximum Penetration
- Excellent Adhesion and Flexibility
- Quick Drying
- Modified to reduce spray drift
- Resistant to chemicals
- Fungi and Algae Resistant
- Easy to Use One Pack System

.SPORTS-COTE Court Binder Moisture Cure is applied to old fretting tarmac surfaces to bind and strengthen prior to the application of Sports Coatings topcoats.

SPORTS-COTE Court Binder Moisture Cure is regularly used to treat new surfaces to reduce the effect of high temperatures and to increase the adhesion and subsequent life of the surface coatings.
