

Asphalt with Sports-Cote™ Excel Applied to Surface

EXTRA TOUGH WATER-BASED POLYURETHANE SURFACE

The **Sports-Cote™ Excel** is a single pack coating designed for application to porous Tennis and Netball courts which are subjected to higher than average wear.

Sports-Cote™ Excel is formulated using water-based polyurethane resin technology providing an environmentally safe coating that will retain the necessary player surface interaction characteristics and will increase the active life of the court.

Sports-Cote™ Excel is formulated using water based polyurethane derived from a natural sustainable source.

- Extra Tough with Extended Durability
- Slip Resistant (meets the dry and wet performance requirements of AENA)
- Water Based Polyurethane
- Bright Intense Colours
- Increased Chemical Resistance
- Surface Dries Faster
- Modified to reduce spray drift
- Fungi and Algae Resistant
- Compatible with **Sports-Cote™ Court Binder**

Sports-Cote™ Excel is used as a spray applied coating for high use porous Tennis and Netball surfaces.

This coating will enhance the appearance of the court and will impart the necessary slip resistance features and long term durability complying with the current standards laid out in the SAPCA Code Of Practice.
