

Sports-Cote™ Elite
Cross-section

HIGH PERFORMANCE
IMPERMEABLE
CUSHIONED
ACRYLIC SURFACE

The **Sports-Cote™ Pro Elite** system comprises a high quality prefabricated 6mm rubber mat and specially formulated acrylic coatings resulting in an extremely durable impervious surface offering maximum comfort and consistent ball bounce.

Sports-Cote™ Pro Elite is suitable for use both indoors and outside.

As well as having excellent durability the cushioning effect will remain constant throughout seasonal temperature variations and over many years of use.

The uniform thickness of the mat ensures true ball bounce on all areas of the court.

The coatings can be adjusted to meet the slip resistance requirements for other sports such as netball, basketball and five-a-side. This makes it the ideal surface choice for Multi Use Games Areas (MUGAs).

The substrate is usually a high density macadam or concrete base with minimum thickness as laid down by the SAPCA Code of Practice for the Construction and Maintenance of Tennis Courts.

The recycled rubber mat is then adhered to the substrate using a specially formulated solvent free adhesive.

A two pack polyurethane pore filler is applied to the rubber mat, giving a smooth surface for the system's upper layers. To create a totally seamless and resilient system, this is followed by the application of a two pack polyurethane flexible membrane. Two wear layers of highly durable acrylic paint are then applied, together with a top coat that imparts the required colour and slip resistance to the surface.

ITF Classification

ITF
International Tennis Federation

CLASSIFIED COURT PACE **2**
MEDIUM-SLOW

Sports-Cote Pro Elite
as supplied by
Sports Coatings Ltd.

has been classified as
CATEGORY 2 – MEDIUM-SLOW

Expiry Date: 18 August 2019

Jamie Capel-Davies
Manager, Science & Technical

This Classification was established using the product composition described in test report no. CS 01/02-16-523

Note: ITF classification does not imply any form of ITF approval or endorsement
