

Sports-Cote™ Pro In-Situ Cushion Cross-section

HIGH PERFORMANCE IN-SITU CUSHION ACRYLIC SURFACE

The **Sports-Cote™ Pro In-situ Cushion** surface offers a genuine cushioned acrylic court that will suit the smaller budget.

The system is available with options on the thickness of cushion layer. The cushion thickness can be set between 1mm and 3mm and is applied as a series of coatings in liquid form.

The **Sports-Cote™ Pro In-situ Cushion** system of wear layers and colour coats completes the installation.

PRO IN-SITU CUSHION

Sports-Cote™ Pro In-situ Cushion coatings can be adjusted to meet the slip resistance requirements for other sports such as netball, basketball and five-a-side. This makes it the ideal surface choice for Multi Use Games Areas (MUGAs). All materials used in the formulation and installation of these products are environmentally friendly by utilising recycled rubber for the cushion layer together with water-based polymer coatings.

ITF Classification

The image shows a blue and white ITF certification card. At the top left is the ITF logo (International Tennis Federation). In the center, it says 'CLASSIFIED COURT PACE'. On the right, a large '3' is followed by 'MEDIUM'. Below this, it states 'Sports-Cote Pro In-situ Cushion as supplied by Sports Coatings Ltd.' and 'has been classified as CATEGORY 3 - Medium'. The expiry date is '7 February 2021'. A signature of Jamie Capel-Davies, Head, Science & Technical, is present. A note at the bottom states: 'Note: ITF classification does not imply any form of ITF approval or endorsement.'
