

Moisture Cure

Single Pack Polyurethane Coating for Polymeric Surfaces

Sports-Cote Moisture Cure is a single pack polyurethane coating designed specifically for application to polymeric sports and play surfaces.

Sports-Cote Moisture Cure is formulated using flexible and highly durable polyurethane technology. This provides optimum longevity when applied to polymeric tennis and netball courts, hockey pitches, five-a-side soccer pitches and Multi-Use Games Areas (MUGAs).

Sports-Cote Moisture Cure utilises UV resistant polyurethane technology, is readily applied by airless spray and is available in a range of colours.

Special Properties

-  Airless spray application for even and economic coating
-  Quick cure formulation to reduce facility downtime
-  Intense colours for an aesthetically pleasing surface
-  Abrasion resistant for outstanding durability and performance
-  Very good chemical resistance - withstands degradation by common pollutants
-  Slip resistant - meets the dry and wet requirements of the ITF and AENA
-  Unaffected by common cleaning agents - no surface deterioration during maintenance
-  UV-resistant for maximum colour retention

Uses **Sports-Cote Moisture Cure** protects and enhances the appearance of polymeric sport and play surfaces whilst imparting slip resistance characteristics to comply with the requirements of the ITF and AENA.
